# Manage Internet Cloud Resources

## Optional Activity: (2 - 3 hours)

Create a serverless web application using Azure Functions.  Follow the instructions in one of the links below.  If done as a team, material learned may be included with the team presentation for additional points.  Some of these exercises have not been covered as yet in the bootcamp, so this activity is optional.  It is not required to complete all the tasks if this activity is attempted:
